EXPERIENCE

Senior Technical Associate

Sears

📅 January 2023 – Present   📍 Remote

- Migrated legacy code to enhanced rich TypeScript with NextJS v14 framework
- Collaborated with cross-functional team of back-end developers and UI/UX Designers.
- Unit tested reusable UI components using Jest with 90%+ code.
- Implemented state management workflow for SHS.com with React Hooks, Context API, Redux, and Custom Hooks.
- Prototyped creative solutions quickly, and collaborated with others in crafting and implementing the technical vision
- Knack for benchmarking and optimization using chrome dev tools for client-side performance analysis devising various combinations such as Network throttling, CPU slowdown etc.

SDE - 2

Mobcoder

📅 Dec 2021 – Dec 2022   📍 Noida

- Worked with marketing designers, translated 40+ designs into 100% reusable code.
- Worked in agile environment with weekly stand-up, kept track of user stories/bugs in projects.
- Mentored junior developers while reviewing their pull requests on a daily basis.

System Engineer

Tata Consultancy Services Ltd

📅 June 2019 – Dec 2021   📍 Noida

- Learned front-end object-oriented programming to develop client & server-side systems.
- Identified and implemented dynamic web solutions in accordance to company standards.
- Pair programmed with team members, and reviewed team's code to provide additional perspective and catch previously missed errors & ESlint issues

EDUCATION

B.Tech in Computer Science

Punjab Technical University

📅 2015 – 2019

Senior Secondary

CBSE Board

📅 2015

SUMMARY
